## KIRKBY HIGH SCHOOL

### Statement of Action:

#### **Introduction**

Kirkby High School (KHS) has been judged as requiring 'special measures' following the Ofsted Section 5 Inspection of 21st-22<sup>nd</sup> February 2017. This document provides the Multi-Academy Trust's statement of support and improvement plan, together with its intended strategy for supporting, monitoring and evaluating the school as required by Ofsted's guidance, with regard to schools identified as requiring special measures.

#### **The Additional Support the Trust will Commission**

The Trust will ensure that the required reviews of governance and Pupil Premium take place swiftly and the findings of these are implemented. External support from our consultant will continue and be used as an additional validation and challenge to the leadership on progress made with the action plan.

#### **Arrangements to Inform Parents**

Parents and prospective parents have been informed about the outcome of the inspection process and the report has been provided. Parents have also been invited to make personal contact with the school to meet individually with leaders and discuss the report's findings. Three meetings have been held for the parents to discuss the report and answer their questions and concerns and gather their views. This action plan will be posted on the website for all parents with a dedicated email address ([actionplan@kirkbyhighschool.net](mailto:actionplan@kirkbyhighschool.net)) for them to comment and have input.

#### **Improvement Plan:**

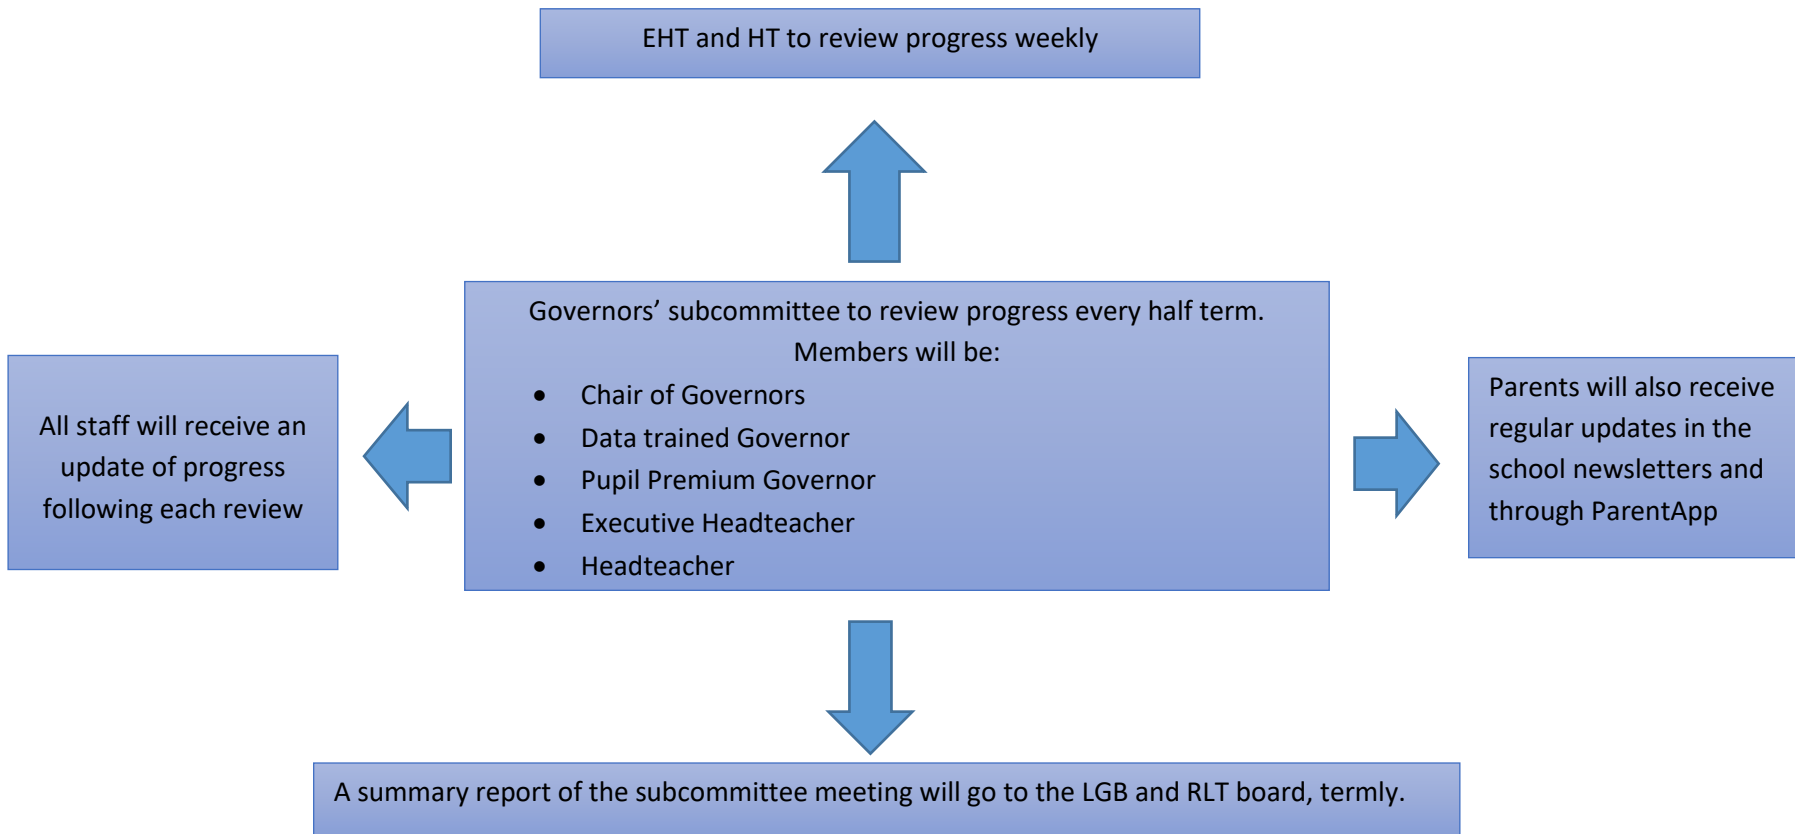

#### **How the Trust will Monitor & Evaluate Progress**

The Trust will monitor and evaluate progress against the improvement plan by:

- The EHT will carry out regular school reviews and provide a report to the additional governors' subcommittee, which meets every 6 weeks, to monitor the school's progress. The governor's subcommittee will be made up of three governors, the HT and the EHT and will provide robust challenge to the school on the progress being made. Dates already scheduled are TBC.
- Where necessary an external consultant may be brought in to assist the EHT in these reviews. This will bring independence to the system and provide further challenge to the school. During these visits the school's progress towards targets and the successful implementation of the action plan will be scrutinised and evaluated.
- The EHT will meet weekly with the HT to measure progress against the targets and the impact of the improvement plan.

- The RLT Head of School Improvement will meet weekly with the HT in addition to attendance at weekly SLT meetings to measure progress against the targets and the impact of the improvement plan.
- Termly meetings will occur with the RLT board to monitor progress against the targets and the impact of the improvement plan.
- All progress will be evaluated against the clear Key Performance Targets in the school's action plan.

The Trust has outlined 3 distinct phases to the improvement of Kirkby High School. These are March to July 2017, August 2017 to March 2018, April – December 2018. There are targets for all 3 phases in the table below. The improvement plan focuses on the first phase – March to July 2017 in detail. As this is updated and successes tracked the second phase will start to be planned in greater detail and then the third.

## Budget for Implementing the Improvement Plan

The estimated budget for realising phase 3 of the improvement plan is:
