

Maximising Our Potential

10th November 2025

Dear Parent/Carer,

We would like to remind you that your child will be using Sparx Maths to complete their maths homework. Sparx provides a highly personalised weekly homework to students, tailored to their attainment level and working speed.

Your child's homework will be set on Friday and due on the following Wednesday every week.

We know you want to support your child's progress in maths, so I am sending this letter to explain how Sparx works and how you can help your child complete their homework each week. We also run a homework club at lunchtimes to assist any student who is struggling.

How can you help your child with their homework?

- Provide a quiet space for your child to focus on their homework each week.
- Encourage them to start their homework early so they can get help from their teacher before the deadline if they get stuck.
- Check the weekly email you'll get from Sparx and praise your child for starting or completing their homework. Encourage them to finish it before the deadline if they have not already done so.
- Try not to help your child with a question until they have had a go first. It is essential they try to complete their homework independently so that Sparx can give them questions that are at the right level for them. Remember they can watch the support videos if they need to.
- **Maths club is at lunchtime every Tuesday for all students.**

Students can log in using the 'Log in with Microsoft' link. The username is the email address and password they use when logging in to school systems.

Students who repeatedly fail to complete homework will be issued with detentions where they can catch up.

If you have any questions, please contact me at school.

Kind regards,
Ms L Gee
Deputy Head of Mathematics
