

CASHLESS CATERING

Kirkby High School operates a biometric cashless catering system for our staff and pupils. The system uses an image of a fingerprint to create a unique digital signature and then discards the fingerprint. No actual fingerprint will be kept on record. This will allow the school to be better able to provide students with a faster, more efficient meal service. *If you have chosen not to give consent to your child having a fingerprint image taken a 4 digit PIN code will be issued. It will be their responsibility to remember their PIN code so they can make purchases at the tills.*

Once your child's account has been set they can top up their account using the cash deposit machines located in the atrium by placing their finger on the sensor (or entering their PIN code) followed by inserting the accepted tender below:

£20, £10, £5 notes	£2, £1, 50p, 10p, 5p coins
--------------------	----------------------------

(No copper coins are accepted)

To pay for school meals, parents/carers can log on to the Parent Portal on Arbor and credit their child's account.

For further information please contact the School Meals Service team at the address below:
