## **April 2026 School Report**

This report provides an indicator of your child's progress, behaviour and attitude to learning since September and the start of their GCSE courses.

The Department for Education (DfE) produces estimates of expected GCSE grades for your child using KS2 SATS results. We use this data and additional information to set stretching individual targets. The report shows how your child is progressing towards their individual academic targets.

The current assessment grades that your child has been awarded are based on progress over time, not one exam or assessment. The Attitude to Learning (ATL) grades are based on the same time period, on a scale from A-E, and their descriptions are enclosed.

If you would like to discuss your child's report in more detail with his/her form tutor, please email [admin@kirkbyhighschool.net](mailto:admin@kirkbyhighschool.net).

Excellent attitudes to learning and strong attendance will support your child in achieving the best outcomes possible. Thank you for your continued support as we work together to maximise your child's potential.

Yours faithfully,

Mr Scott Durrant  
Deputy Headteacher
