April 2026 School Report

This report provides an indicator of your child's progress, behaviour and attitude to learning since September, and is the final school report that they will receive at Kirkby High School. Please read through this carefully and encourage your child to take advantage of all learning opportunities in preparation for the start of the GCSE exams.

Your child has been set stretching individual targets based on their performance at KS2 and the YELLIS assessments completed in school. The report shows how your child is progressing towards their individual academic targets.

The current assessment grades that your child has been awarded indicate their current performance in the subject. The Attitude to Learning (ATL) grades are based on the same time period, on a scale from A-E, and their descriptions are enclosed.

If you would like to discuss your child's report in more detail with his/her form tutor, please email admin@kirkbyhighschool.net.

Excellent attitudes to learning and strong attendance will support your child in achieving the best outcomes possible. Thank you for your continued support as we work together to maximise your child's potential.

Yours faithfully,

Mr Scott Durrant
Deputy Headteacher
